EXPERIENCE

UBISTART   February/2021-present
Front End Developer
- My squad is developing an e-commerce platform with an admin panel from scratch for a clothing company. For better SEO, performance and image optimization, I chose to use NextJS.
- Front End technologies used: Next, Typescript, Redux, SWR and Chakra UI.

MARATONAS ACADEMY   February/2021-October/2021
CTO & Co-Founder
- Created a programming teaching platform focused on frontend technologies: ReactJS, NextJS and Typescript. The main application is available on https://hub.maratonas.academy/. My team used a South Corean teaching style focused on accompanying students through an online community and livestreams to help solve the weekly challenges
- Front End technologies used: Next, Typescript, Zustand, SWR and Chakra UI.
- Back End technologies used: Nest, TypeORM, Fastify and Heroku.

BBNK   January/2021-February/2021
Front End Developer
- BBNK is a whitelabel banking platform. I worked on the CSS squad (Conta Super Simples - Super Simple Account), a feature that aims to make the account creation process faster. Developed the "reduced journey" feature for individual customers to create an account and report income on internet-banking.
- Front End technologies used: React, Typescript, MobX, Styled Components.

TALENT FOUR CONSULTING   October/2020-January/2021
Front End Developer
- The company Talent 4 provided consultancy services to the company BBNK. I participated in the cards squad, where I was responsible for building interfaces for BBNK's internal management dashboard and partners dashboard. Improved debit, credit and virtual card functionalities.
- Front End technologies used: React, Typescript, MobX, Styled Components.

FREELANCING   2020
Private Lecturing
- Preparation classes for entry level developer roles, with resolution of real challenges
Consulting
- Helped a client build the architecture of a fullstack application with Next.js, API Routes and MongoDB
- Developed several portfolios, containing the projects carried out and work experiences. The sites content can be edited through the Netlify CMS interface

ESPAÇO VIRTUAL
Junior Front End Developer   November/2019-July/2020
- Participated in a project called "Astro Muri", a mobile hybrid app of a famous brazilian astrologist: Ricardo Muri
- I was responsible for the login pages and the payment method. I used a brazilian payment gateway called "pagseguro", and deployed it to google cloud functions
- Front End technologies used: React Native, Redux
- Back End technologies used: Firebase

SOCIAL MEDIA
Founder of YouTube channel Daniel Berg **2019-present**
- Recorded a total of 4 complete courses: Next.js (6 hours), Javascript (4 hours), Linux terminal (6 hours) and Trello and productivity tips (2 hours)

EDUCATION

UNIVERSITY OF BRASÍLIA (UnB)
Bachelor degree in Network and Communications Engineering **2016-2022**

GOSTACK BOOTCAMP – ROCKETSEAT **2020**
- Modern web and mobile development bootcamp, covering the subjects: Typescript, React Native, React and Node
- Workload: 160 hours

IEEE COMMUNICATIONS SOCIETY - UnB CHAPTER
Member **2018-2019**
- Participated in a Penetration Testing project. The team used Kali Linux to simulate a hacking environment, and used python to create tools to prevent the attacks

President **2019-2020**
- Coordinated the selection process of new members
- Lectured a Front End Development course of HTML, CSS, Javascript and React JS

TECHNICAL SKILLS

- **Design softwares:** Figma, Gimp
- **Programming softwares:** Insomnia, Dbeaver, Beekeaper
- **Front End:** Javascript, Typescript, ReactJS, NextJS, Styled Components, Chakra UI, Redux, Zustand
- **Back End:** NestJS, AdonisJS, TypeORM, Docker
- **Database:** Postgres, MongoDB
- **Hosting:** Vercel, Netlify
- **Others:** Linux, Git, GitHub, VIM, VScode

OTHER SKILLS

- **Languages:** English (advanced), Portuguese (fluent)
- **Hobbies:** Teaching others and studying new subjects. That's why I created my YouTube channel. To help people get into tech, and to contribute to the online community that provided all the content I studied
